Faculty of IT & Computer Science
MCA & M.Sc. IT Sem – 3
Academic Year 2025-26 ODD Term
RESEARCH PAPER Submission and Internal Review Plan

Mile Stone No.	Description	Last Submission Date
1	i) Research Topic & Problem Definition Submission ii) Approval and Presentation of Proposed Research Topic	5-07-2025
2	Literature Review & Gap Identification (minimum 5–10 high-quality papers)-Reference	12-07-2025
3	Research Objectives, Hypothesis, and Methodology Design	14-07-2025
4	Data Collection Plan / Simulation Setup / Proposed Experiment Details	26-08-2025
5	Draft Paper Writing – Introduction, Methodology, Results Sections	02-08-2025
6	Final Paper with Abstract, Figures, References in Target Journal Format (Internal Final Submission Soft Copy, Hard Copy of Research Paper , 10% Plagiarism Report)	9-08-2025
7	Complete Paper Ready for External Journal Submission	23-08-2025
8	Paper should be Published and indexed	Complete On or Before 31-08-2025

Detailed Milestone Instructions

✓ 1) Research Topic & Problem Definition

- Choose a relevant, novel research topic aligned with your Domain Specified.
- Clearly define the problem statement.
- Submit **title and brief abstract (150–200 words)**.

✓ Approval & Presentation

- Present your proposed topic and problem definition to your **assigned research guide**.
- Secure formal **approval and feedback**.
- Without guide approval, **you cannot proceed to further reviews**.

✓ 2) Literature Review & Gap Identification

- Minimum 5–10 quality research papers (IEEE, Springer, Elsevier, Scopus-indexed) must be reviewed.
- Summarize:
 - Existing systems/methods
 - Limitations
 - Identified research gap
- Prepare **structured review document** (min. 400 words).

✓ 3) Research Objectives & Methodology Design

- Define clear, measurable research objectives.
- Formulate hypotheses (if applicable).
- Select and justify research methodology (Qualitative, Quantitative, Experimental, Survey, Simulation, etc.).

- Provide detailed **process model or flow diagram**.
-

✓ 4) Data Collection / Simulation / Experiment Plan

- Define:
 - Data sources / dataset description
 - Experiment setup / software tools / simulation design
 - Justify chosen tools and techniques.
 - Include hardware/software requirements.
-

✓ 5) Draft Paper Writing

- Write initial sections:
 - Introduction
 - Literature Review
 - Proposed Methodology
 - Partial Results / Expected Results
 - Use **target journal format** (e.g. IEEE double-column, Springer template).
-

✓ 6) Final Paper Preparation

- Complete paper with:
 - Abstract
 - Keywords
 - Introduction
 - Literature Review
 - Methodology
 - Results & Discussion
 - Conclusion
 - References (IEEE / APA / target journal style)
 - Ensure **plagiarism below university threshold**.
library.pibaca@paruluniversity.ac.in
 - Include proper **figures, tables, charts**.
-

✓ 7) Final Submission

- **Submit:**
 - **Plagiarism Report**
 - **Final Research Paper soft copy in PDF**
 - **PowerPoint presentation for Research Paper**
 - **Deadline before 23-8-2025.(submission to journals)**
Paper should be Published and indexed Before 31.12.25
-

📌 Instructions for All Students

- ✓ Approval from the assigned Research guide is **compulsory** at every stage.
- ✓ Without guide sign-off, **review appearance is not allowed**.
- ✓ Attend **all internal reviews**. Marks will be converted to Asper **university Policy** only if all reviews and final submission are complete.
- ✓ Strictly follow the department's guidelines and given paper formats.
- ✓ Below 10% Plagiarism Report is mandatory at the time of submission to your Guide
