Practical - 2

A mobile application login screen with a light purple background. At the top, there is a status bar with signal and battery icons. Below it, a text input field contains the username "admin". Underneath the username field is another text input field for a password, which is currently empty and has a small "..." icon to its left. Below the password field is a rounded purple button with the text "Login" in white. At the very bottom, there is a thin horizontal line representing the home indicator bar.

Practical - 3

A mobile application login screen mockup. The screen has a light purple background. At the top, there are two input fields: the first contains the email address 'abc@gmail.com' and the second contains four dots '....' representing a password. Below these fields is a purple rounded rectangular button with the text 'Login' in white. At the bottom center, there is a light gray rounded rectangular notification bubble containing a green circular icon with a white checkmark and the text 'Login Successful'. The entire mockup is framed by a black border, and a small portion of a blue circle is visible on the left edge.

abc@gmail.com

....

Login

Login Successful
